

KERALAMMATCH

COMPLETE USER & ADMIN PANEL WEB PAGES EXPLANATION

Comprehensive Screen-by-Screen GUI Breakdown · User Flows · Admin Operations · Version 1.0

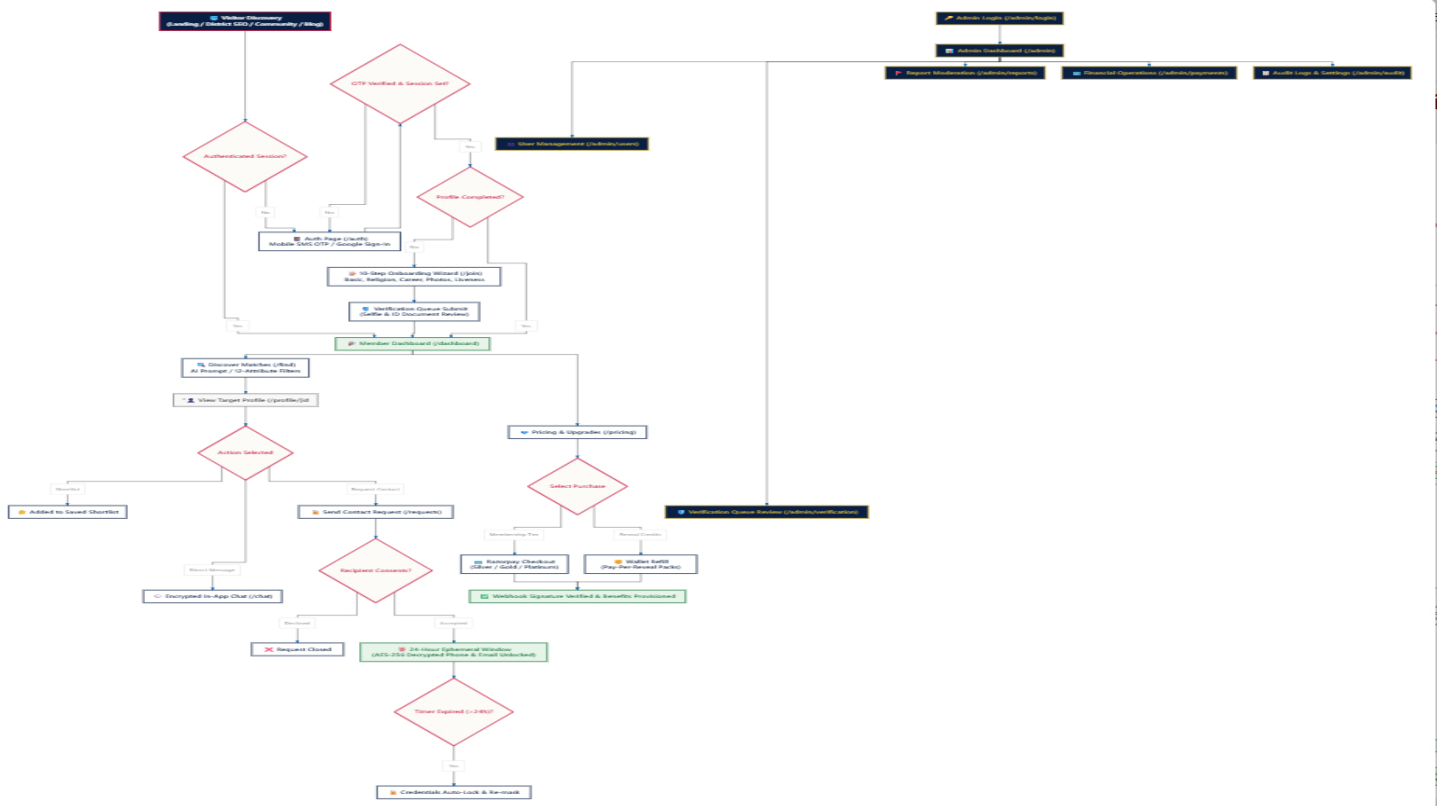

Figure 1: KeralamMatch Complete Master System & Page Architecture Flowchart

1. System Architecture & Visual Design Framework

KeralamMatch is built on Next.js 16 App Router, TypeScript strict mode, Tailwind CSS v4, and PostgreSQL with Prisma ORM v6. The web application enforces strict Clean Architecture domain separation (Presentation → Controller → Service → Repository → Database) and is styled using a tailored brand palette: Warm Ivory (#FCFBF7), Deep Navy (#0A1F44), Ruby Crimson (#C81D45), and Classic Gold (#D4AF37).

2. User Panel Web Pages Overview

- **Landing Page (/)**: Hero Banner, Malayali couple image, 50,000+ stat bar, 3-column privacy cards, district/community links.
- **Authentication (/auth)**: Split-screen with Nilavilakku lamp graphic motif, Mobile Phone SMS OTP (+91), Google OAuth, session cookies.
- **10-Step Onboarding (/join)**: Progress ring (0-100%), Basic Details, Physical, Religion/Caste, Career, Location, Family, Lifestyle, Photos & Liveness.
- **Member Dashboard (/dashboard)**: Personalized welcome, profile completion ring, views analytics (+18%), recommendation cards grid.
- **Find Matches (/find)**: Dropdown demographic filters, AI Smart Search prompt, 12-attribute compatibility scoring % badges.
- **Profile Detail (/profile/[id])**: Hero card, tabs (About, Lifestyle, Career, Family), verified checkmarks, 24h countdown timer box.
- **Secure Chat (/chat)**: Split-pane messaging, encryption lock banner, crimson/white message bubbles, block user action.
- **Contact Requests (/requests)**: Tabs (Received, Sent, Active 24h, Expired), Accept (green), Decline, active countdown timers.
- **Notifications (/notifications)**: Categorized alerts (Heart, Message, Shield, Coins), unread indicator markers, mark-all-read CTA.
- **Pricing & Upgrade (/pricing)**: Silver/Gold/Platinum tiers, pay-per-reveal packs (■99 for 1 reveal, ■499 for 5), Razorpay modal.
- **Account Settings (/settings)**: Password change form, privacy toggles, notification preferences, account deletion modal.
- **Trust & Safety (/trust)**: Safety hero, 4 privacy pillars (Verified Profiles, 24h Protection, Moderation, Instant Blocking).
- **Blog System (/blog, /blog/[slug])**: Category filter pills, 7 published articles, rich text body, author bio, social sharing.
- **District & Community SEO Pages**: 13 Kerala district pages + 6 community hubs with local statistics and popular areas.

3. Admin Panel Web Pages Overview

- **Admin Layout (/admin/layout.tsx)**: Dark Navy sidebar (#0A1F44), active crimson item (#C81D45), top search header bar, session guard.

- **Admin Login (/admin/login):** Admin auth card with Nilavilakku lamp graphic motif, email/password form, security badge.
- **Master Dashboard (/admin):** 4 KPI cards (Total Users 25,430, New Regs 1,234, Verified 18,765, Active Premium 2,456), registration chart.
- **User Management (/admin/users):** Searchable user table, status filter tabs (All, Active, Inactive, Blocked, Premium), ban/verify controls.
- **Verification Queue (/admin/verification):** Inspect candidate selfie liveness & Aadhaar ID uploads; Approve (green badge) or Reject.
- **Reports & Moderation (/admin/reports):** Inspect reported profiles (harassment, spam, fake), issue warnings, dismiss, or suspend user.
- **Payments & Revenue (/admin/payments):** Revenue metrics (₹18.76L), transaction ledger table, plan names, Razorpay payment IDs, refunds.
- **Blog CMS Editor (/admin/blog):** Article management table, create new article modal, publish/draft toggles, SEO metadata.
- **FAQ Management (/admin/faq):** Customer support Q&A; editor, create FAQ modal, inline edit and delete actions.
- **Audit Logs (/admin/audit):** Immutable audit trail table recording staff name, module, action, IP address, and timestamp.
- **System Settings (/admin/settings):** Global configuration for site name, support email, 24h reveal duration, maintenance mode.

4. Core Technical Mechanics

- **24-Hour Ephemeral Reveal:** AES-256 decrypted credentials active for 24h upon mutual consent; auto-locks when expired.
- **12-Attribute Match Scoring:** Computes compatibility % across religion, education, lifestyle, location, and goals.
- **Razorpay Webhook Validation:** Validates HMAC SHA-256 signatures before provisioning plans or wallet credits.
- **Admin Privacy Shield:** Architectural redaction preventing admin access to private candidate messages.
